

# Sun Protection Policy

## Aim

The aim of this policy is to provide guidelines for event organisers to protect participants from harmful solar radiation.

The aims of this policy are to promote:

- An awareness of the dangers of exposure to the sun and the need for protective measures.
- The need for positive attitudes and responsible behaviours towards skin protection.
- Practices that can reduce the incidence of skin cancer.

## 1 Background

- Australia has the highest incidence of skin cancer in the world.
- Levels of ultraviolet radiation are particularly high in many locations around Australia, due to ozone layer depletion and generally clear weather.
- Scuba diving activities are outdoors and at times of the day that risk high exposure to the sun.

## 2 Revision

This policy is to be maintained and reviewed by the AUSC Committee.

## 3 Application

This policy applies to all members who participate in AUSC activities.

## 4 Activities

- Event organisers shall make broad spectrum SPF 15+ sunscreen freely available on scuba diving boats.
- Shade umbrellas should be taken on boats where possible, and should be setup on days with minimal wind.
- Where possible, minimise scuba diving events during expected high risk times of day.
- Players should be encouraged to wear a hat when not in the water.

## 5 Juniors

- Junior players should be encouraged to:
  - Apply sunscreen; and
  - Wear a hat.
- Adults involved with junior members should be role models of best sun protection behaviour.

## 6 Further information

The Cancer Council of Australia provides considerable on-line information on sport and sun protection which can be used when implementing and reviewing this policy.
