

Secretary's Report 2019-2020

Margot Morelli

As Membership officer, I have served in committee and club member administration.

The peak membership was briefly experienced in March 2020 at 137 people; likely to be a result of the student sign-up in O-week. Membership numbers have been impacted by the departure of underwater rugby members from the club.

Our diversity of membership as of August 2020 is;

| Gender | Percentage |
|---------------|------------|
| Male | 54% |
| Female | 41% |
| Not Specified | 5% |

Note, this is unchanged from the last period of service.

| User Type | Percentage |
|-------------------|------------|
| AU Student | 58% |
| Associate Member | 19% |
| Other | 13% |
| University Member | 10% |

Note, this is improved from the previous percentage of student members (38%).

Recommendations to the Membership Officer of the 2020-2021 Committee include:

Recommendation

1. *Introduce the New Committee on our Social Media.*
2. *Publicise and encourage our Code of Conduct.*
3. *Reach out to the AU Science department to subsidise (or encourage) open water certification.*

Reason

- Ensure that the broader group know who each committee is to encourage feedback, conversations and connection to the club.*
- Maintain our healthy dive focused culture.*
- Fulfil our club objective of encouraging student divers.*
